

# Bottlenose dolphin

Biology and Interaction

## RAPPOREUR ACCIAI MONICA

WORKSHOP FOR TRAINER AND ASPIRANT

25 e 26 MAY 2019

CONFERENCE ROOM HOTEL CORALLO RIMINI

PARK OLTREMARE RICCIONE

ORGANIZE CSEN PROVINCIAL COMITEE RIMINI AND WATA ASD

## MARINE MAMMALS EXPERT ACCIAI MONICA

### THEORY PROGRAM

EVOLUTIONARY HISTORY OF THE BOTTLENOSE DOLPHIN  
SUMMARY OF BIOLOGY - TRAINING IN HISTORY - WHY 'WE TRAIN  
CLASSIC AND OPERATING CONDITIONING - PAVLOV AND SKINNER  
REINFORCEMENT - THE WHISTLE - THE TARGET - THE SIGNAL  
MEDICAL PREVENTION

### WHO THE WORKSHOP IS ADDRESSED

The workshop is open to trainer and aspirant trainer,  
evn if you are young or very young,  
veterinarians, biologists, animal lovers in general.

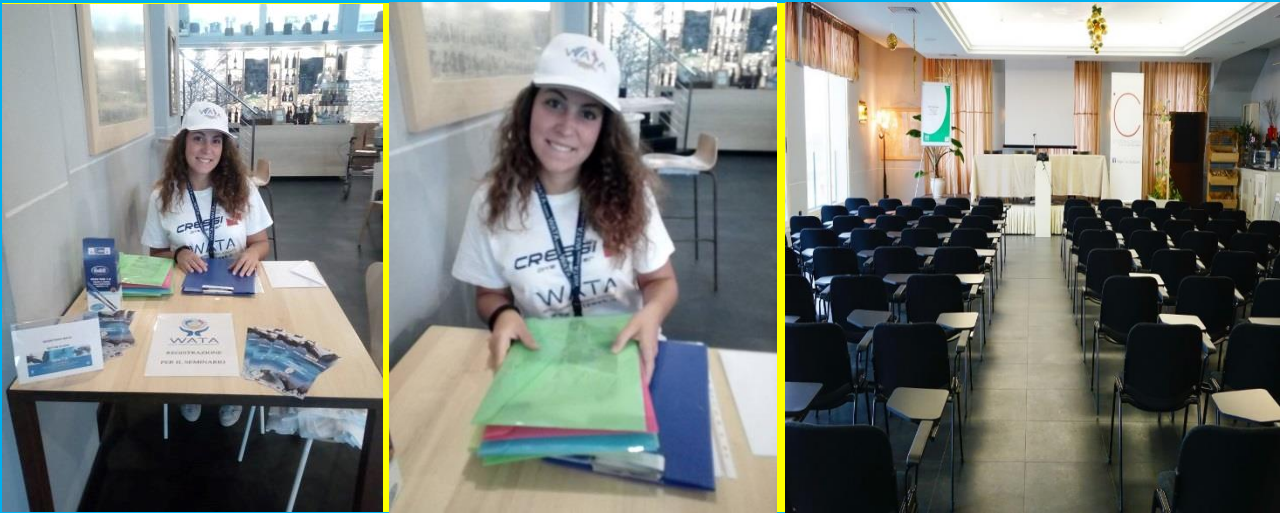

Single and group tests will be performed with the speaker to understand  
how to interact with dolphins in the correct way.

The stage is also addressed to those who want to interact  
with other species of animals such as land mammals.

Thanks to the knowledge of the operant conditioning,  
to the correct use of the positive reinforcement,

you can achieve excellent results and improve the binomial with your animal.

Expected final understanding test
